

# Seaport 3: How to Begin

1. After logging in and selecting your course, click **Course Information Templates**, located in the center area under Course Announcements (Figure 1).
2. Click **How to Begin** (Figure 1).

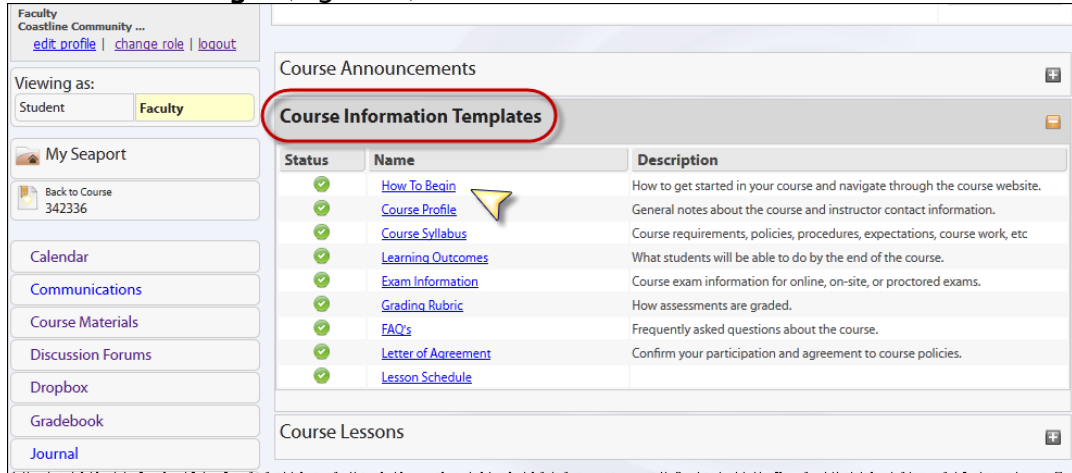

Figure 1

Note: If you imported a course from Seaport 2 into Seaport 3, the How to Begin did not copy over because Seaport 2 How to Begin information does not apply to Seaport 3. When you open an empty How to Begin template, default text will appear. This text has been updated to reflect the new design of Seaport 3. You may change this text.

3. Make any necessary changes. If you copy text from Word and paste it in the edit box, be sure to paste by clicking on the **Paste as Plain Text** button on the Seaport editor toolbar (Figure 3). This will eliminate any hidden and conflicting formatting from Word and ensure a “cleaner” display of the course’s web pages. You may use the Seaport editor toolbar to format the text for bold, lists, etc.
