

Seaport 3: Fully/Partially Met Percentages

Using the weight distribution for a SLO, each student's SLO achievement is defined as either "Fully Met," "Partially Met," or "Failed to Meet." By default, these percentages are set to 80% for fully met and 60% for partially met. For example,

- Fully Met = a student achieves 80 - 100% of the SLO.
- Partially Met = a student achieves 60 - 79% of the SLO.
- Failed to Meet = a student achieves below 60% of the SLO.

Follow the steps below to change the SLO Fully/Partially Met percentages.

1. First enter a course and then from the left navigation menu, select **Student Learning Outcomes** (Figure 1).

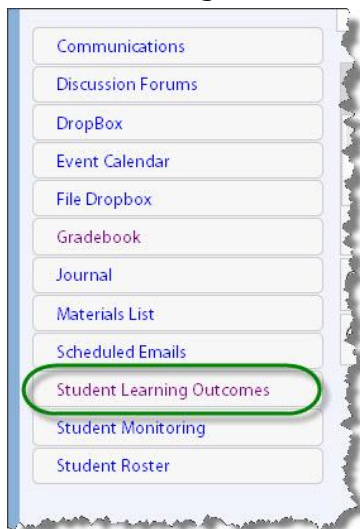

Figure 1

2. From the SLO menu, select SLO Fully/Partially Met Percentage (Figure 2).

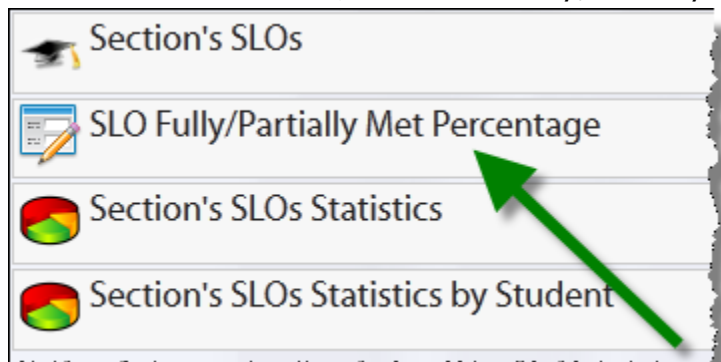

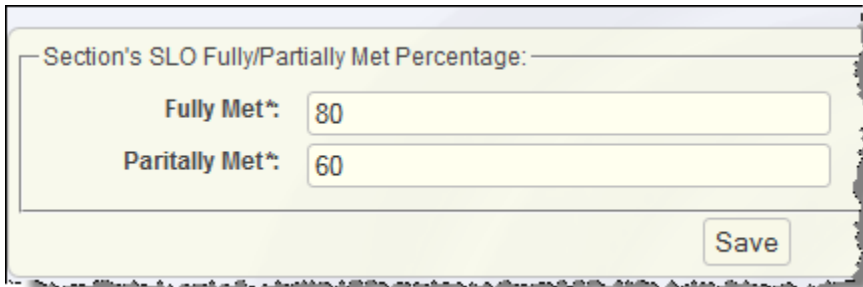

Figure 2

Seaport 3: Fully/Partially Met Percentages

3. Enter values for “Fully Met” and “Partially Met” (Figure 3). Do not enter percent signs.

The screenshot shows a web form titled "Section's SLO Fully/Partially Met Percentage:". It contains two input fields: "Fully Met*" with the value "80" and "Partially Met*" with the value "60". A "Save" button is located at the bottom right of the form.

Section's SLO Fully/Partially Met Percentage:	
Fully Met*:	80
Partially Met*:	60
<input type="button" value="Save"/>
